Reminders

PCORI annual fee due by 7/31: Don't forget, your clients must report on and pay the Patient-Centered Outcomes Research Institute (PCORI) annual fee by 7/31 to the IRS. We've made it easier for them to do so with a new report that helps determine their membership counts.

Once membership totals have been established, your clients can use the PCORI instructions in the [attached letter](#) to calculate their annual fee. They can access the new Medical Membership Enrollment by Tier Report at <https://www.aetna.com/ahia/login>. You also have access to the PCORI calculator to help your clients calculate their fee. Just go to [ProducerWorld](#)[®], then click on the "Tools" tab.

Be sure to share the [attached letter](#) with your clients for more information.

Important case submission deadlines: We want to thank you for your business. Our AFA sales volumes have been very high – just one proof that it is a valuable product for you and your clients!

We want to remind you of key case submission deadlines:

- Groups with complete submissions by the 10th of the month will be claim and bill ready for the 1st of the month.
- All groups must have complete submissions by the 25th of the month. *However, due to the high case volumes, we urge you to get your case submissions in as soon as possible to help ensure successful group set up.*

If groups have incomplete submissions on the 25th, or if submissions are submitted after this date, they will be moved to the next effective date.
