

Counting Update

Aetna Funding Advantage

aetna[®]

We updated our AFA counting methodology

We're always working to improve our quoting guidelines to make the process easier for you and to maximize value for your clients. As part of these improvements, we changed the counting methodology for Aetna Funding Advantage (AFA) groups (5-50).

We now use Eligibles in Virginia

We have switched from using Total Average Employees (TAE) to using Eligibles to determine AFA group size in your market. As a reminder, an Eligible employee is generally:

A permanent, full-time employee who works 30+ hours a week (on average).

*Note: States may differ in their definition of an Eligible employee.
Please refer to your State provisions.*
