Aetna Funding Advantage (AFA) for 5-50\*

### April 2018 product information now available

We've updated our Small Group Aetna Funding Advantage (AFA) portfolio. Starting with April 1, 2018 effective dates, you can use our benefit grids on [Producer World](#) when talking with your under 50\* clients about AFA. For renewing groups, we will send out an email communication with a summary of plan changes.

New features include:

- More Rx delivery options: the new Maintenance Choice benefit included with plans allows members to get their 31-90 day prescription supply at local CVS pharmacy, in addition to Aetna mail order. Specialty drugs are not included.
- Easier access to vaccines: Members (age 18 and older) can receive certain preventive vaccinations at no cost through their AFA pharmacy benefit when visiting any one of the 63,000 retail pharmacies in our network.
  - Seasonal vaccines included: Injectable Seasonal Influenza Vaccination (Trivalent®), Injectable (Quadrivalent® and Flublok®), Intradermal (Short Needle) and Injectable Seasonal High Dose (Fluzone®).
  - Preventive vaccines included: Shingles, Tetanus, Diphtheria, Toxoids, Hepatitis A&B, Pneumonia, Varicelle, Measles, Mumps, Rubella, Meningococcal, Pertussis and

Human Papillomavirus.

*Note: These benefits are subject to limitations and exclusions and may be subject to meeting vaccine-specific age or other recommendations.*

We continue to offer 33 Open Access plans nationally (which require no referrals) that can be paired with 54 local network options with greater cost savings. In addition, all plans include our health and wellness value adds like Apple Watch®, Online Health Coaching and telemedicine\*\*.

You can quickly find AFA benefit grids and marketing materials to support your selling efforts on **Producer World**.
