

Aetna Vision Preferred

The Aetna Vision Preferred (AVP) Welcome Packet ([SAMPLE here](#)) contains 2 (two) ID cards in the subscriber's name, lists the benefits and locations for 10 nearby providers. While Vision ID cards are not needed to redeem benefits, they are provided, for convenience, within 7-10 days of eligibility loading. Providers can verify eligibility by way of patient demographic information.

At a time when health care costs are rising, it only makes sense to provide an affordable, quality, preventive care vision plan that will help keep members healthy and costs down. That's why we've created Aetna Vision Preferred!

[Aetna Vision Preferred Brochure](#)

Aetna Vision Preferred (AVP) is a fully insured stand-alone vision product offering for clients with 2 or more eligible employees.

AVP can be purchased alone or can complement other Aetna products. We offer a **full plan** which includes coverage for exams, frames, lenses and contacts or a **material only plan** which allows the eye exam to be kept with the medical plan (**material only plan available for groups over 1,000 eligible employees**). Please contact your Aetna (Innovation Health) Sales Rep or Account Manager for plan options / availability.

AVP is an ALIC product and is underwritten by Aetna.

Aetna has a long standing relationship with EyeMed Vision Care LLC and we've partnered with EyeMed to provide certain administration services for our AVP members including; claims processing, customer service, network, website management and fulfillment (ID Cards). This relationship allows us to provide world class service as well as offer one of the largest national networks in the country!
