New AFA application for Small Group

Our simplified employer application and paperless submission process

Just in time for high 4th quarter volumes, we have a new application and updated paperless process that will simplify your sold case submissions. That means less time spent completing sold case forms and more time to get your clients up and running with their Aetna Funding Advantage (AFA) plans.

You can start using our new small group AFA employer application today on both new business and Aetna customers transitioning to an AFA plan. We've improved clarity, made the language more concise, and combined the AHIA and FSR access forms with the application to reduce the number of forms you and your clients need to complete.
