

Two ways Dental Essential Choice PPO gives members more for their money

May 7, 2019

When members have our Anthem Dental Essential Choice PPO plan, they get two ways to increase their benefit dollars, which they can use to help pay for more expensive dental care the following year and in future years.

- **Carry-over** is a yearly opportunity to roll over part of a member's annual maximum from one year to the next, if the member's dental claims are less than the threshold amount stated in the plan.
- **Network Boost** is a feature that lets members carry over more of their annual maximum from one year to the next, if all of their claims are for care received from network dentists.

With Dental Essential Choice PPO:

- Carry-over dollars never expire, so members can use the dollars saved for dental care in future years.
- Members aren't required to have an annual preventive visit to receive a carry-over reward.
- Members can take advantage of a network boost, which is another reward that lets members carry over an additional portion of their annual maximum from one year to the next, when dental care is performed by dentists in the network.

Download our [carry-over flier](#) to learn more about all three of these features and help your clients and their employees make the most of their dental benefits with Anthem Dental Essential Choice PPO.

If you have any questions or would like more information on our carry-over and network boost features, contact your Anthem sales representative.
