Enhanced Monitoring Program Ending July 31

As part of our effort to evolve our clinical programs, CareFirst BlueCross BlueShield is now offering a new comprehensive virtual clinic through our Diabetes Virtual Care program. The legacy Enhanced Monitoring program, which provided basic monitoring services, will no longer be supported as of July 31, 2020.

CareFirst care managers are contacting current program participants to discuss care needs and next steps. If additional care is needed after graduation, eligible members may be transitioned to the Diabetes Virtual Care program. More information about Diabetes Virtual Care was shared in the [May 6 newsletter](#).
