

Dominion Launches Ortho Discount Program

Dominion now offers an Ortho Discount Program for both adults and children. This option is excellent for groups that do not currently have orthodontia coverage in their dental benefit, but would like to make it available on a voluntary basis to employees who can easily enroll on a direct-billing basis with Dominion.

Everyone is eligible to enroll by paying a one-time charge. Then, coverage and access to reduced orthodontic fees remains active for three years allowing plenty of time to complete a typical orthodontia case.

Highlights include:

- No deductibles, waiting periods or lifetime maximums
- Quality care at predetermined fees
- Choose any in-network orthodontist from one of the largest discount networks in the Mid-Atlantic¹

IMPORTANT NOTE: The new Ortho Discount Program takes effect immediately and no enrollments will be processed on the OrthoSelect program after 11/1/16.

1. Dominion National Competitive Network Survey, 1st Quarter 2016. Mid-Atlantic includes D.C., Delaware, Maryland, Pennsylvania and Virginia. Participating dentists are subject to change.

This is not an insurance plan. It is a reduced fee-for-service program designed specifically for individuals. Members pay a predetermined reduced fee for listed services provided by contracted providers. Dominion does not pay contracted providers for services.
