Primary Care Office News

Dear Valued Broker Partner:

Evergreen Health was founded to provide Maryland consumers with a differentiated, affordable health insurance option. Part of this vision was to ensure that our members had both broad choice via an extensive statewide provider network as well as access to exclusive health care services at our affiliated highly regarded Evergreen Health Care primary care offices.

With the new investment from a team that includes two of the region's premier health systems, we now have the opportunity to bring Evergreen Health Care providers into these health systems and offer our members care at the offices of those systems. We believe this will greatly increase the access for our members. Over the next three months, we will be welcoming members who receive care at the Evergreen Health Care primary care offices to the offices of the investing health systems. We expect many of the Evergreen Health Care providers to move to these health systems' offices as our process unfolds and to be able to maintain continuity of care for our members. We will work with the systems to make sure that our members can continue to receive the preventive services that have made us a leader in quality of care and cost control.

In addition to this change, Evergreen Health sees many positive opportunities ahead to work with our investor health system partners to design and implement new care delivery models, leveraging the extensive networks and high-quality providers from LifeBridge Health and Anne Arundel Health System. These new models will be developed over the coming months. We believe we will be able to continue to differentiate our affordable health insurance options by partnering more closely with these leading health systems in designing health care options centered around the member.

Evergreen Health Care primary care offices will be closing over the next few months, but with this broad network, high-quality, affordable health care will continue to be available for our members, your customers.

For any questions please contact Dustin Plantholt, Chief Sales and Marketing Officer, at dep@evergreenmd.org or 443-528-1372

Sincerely,

Peter Beilenson, MD, MPH
