

## TELEMEDICINE FOR YOUR ENTIRE FAMILY.

It is important to keep your employees' telemedicine benefit front of mind all year. It is also important to remind them it covers all members of their immediate family up to age 26. They need to register all their family members so that when they need to talk to a doctor, their information is already in the system and they can get care quicker. This is how to register: [Click here on How to Register Your Dependents](#)

## HOW TO PRINT ADDITIONAL MEMBER CARDS

The most often asked question

The first step is get your employees to register at HealthPERX. At the upper right hand corner of our website it says, "**Register**." If they don't have their Member ID or Group Code, have them give us a call at 888.417.6187 option 1. We will be able to give them that information. Once they have registered, they will be able to print/download additional cards.

The advantage to registering is twofold. First, if they ever lose their card, they can simply login with their **email and password** and download/print additional cards. They won't need their member ID and group code. Second, the first screen they will see is the Teladoc registration link. This will make it easier for them to register there.

## DISTRIBUTE FLYERS TO YOUR EMPLOYEES.

We have great flyers to distribute to your team all year long. Here's one to print, another to email to the members:

**Break Room Flyer**  
**Flyer to email to Members, before going to Urgent Care**
