

DO YOUR EMPLOYEES WORRY ABOUT THEIR INSURANCE DEDUCTIBLE? THEY DON'T HAVE TO WITH TELADOC.

Welcome to 2016.

The year is coming to an end. Many of your employees are worried about buying Christmas presents, paying their power bill and other expected and unexpected costs. Getting sick doesn't always have to break the bank. It's time to remind your employees that they, and any member of their family, up to age 26, can talk to a doctor 24/7 for a \$0 consult fee. Most all of our groups have a \$0 consult fee.

Here is a great flyer you can distribute to your employees or post in a break room:

[Before Going to the ER](#)

REMIND EMPLOYEES DURING THE HOLIDAYS TO USE THEIR TELEMEDICINE BENEFIT.

Unfortunately, some employees and/or their family members will get sick over the holidays. It's important that they remember they can talk to a doctor whenever and wherever they need it.

How can they get access to a doctor? It's easy, they can talk to a doctor anytime by calling Teladoc at **1.855.847.3627**. Or, they can have a video consultation by downloading the Teladoc app to their phone or mobile device by downloading it from the **App Store** or **Google play**.

MANY PACKAGES HAVE DOCTORS ONLINE. DOES YOURS?
