

healthPERX May 2018 Client Newsletter

Time to remind your employees about their Teladoc benefit.

I know that it feels like we are always reminding our employees about their telehealth benefit. Surprisingly, in most companies, only 30% of the employees are utilizing Teladoc. That means 70% is not! That's why it is so important that we continue to remind employees about the benefits of telehealth. Here is a great flyer that you can post in your break room(s) or common areas:

Do you have eDoc America in your package? When do you use eDoc vs. Teladoc?

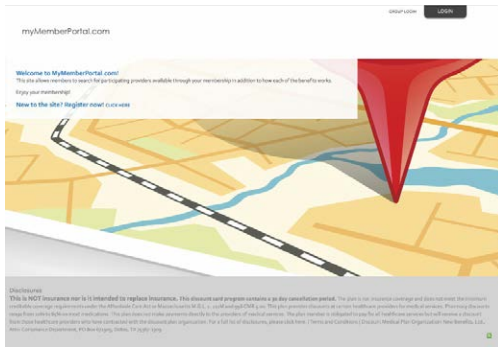

Many of our healthPERX customers have packages that include eDoc America. We often get asked when to use eDoc America and when to use Teladoc. Not sure what benefits are in your package? Look on the back of your healthPERX card. Your benefits are listed there.

Here a great flyer that explains the difference between these two valuable benefits.

Access all benefits at mymemberportal

Members can register at www.mymemberportal.com to view all benefits and directly register for Teladoc and request a consult.

Encourage use of the Teladoc App

Once registered with Teladoc, your employees can download the Teladoc App for quick and easy access to doctors through a video or phone consult with the Teladoc App.
