Solving for Bswift service Issues

New Small Group Update

- Effective immediately we will no longer require ACA new business to be submitted through Bswift, our Innovation Health Private Exchange. The Innovation Health Funding Advantage products do not utilize the Bswift platform.
- We are working on a solution for current business to be moved back to eBusiness at renewal, but our current strategy is to move a majority of our current ACA book of business to Innovation Health Funding Advantage.
- In addition, we will be looking at removing the billing component from Bswift and moving it back to eBilling.
