Innovation Health Funding Advantage 1095s

We keep getting better

We work hard to keep Innovation Health Funding Advantage (IHFA) two moves ahead.

That's why starting this year, we'll handle 1095 forms for IHFA small business customers.

We will automatically send member attestations in January to all Small Group IHFA members with coverage for the previous calendar year. That means new business and renewing IHFA groups (5-50) no longer have to prepare and send 1095 forms to their employees. And members will still have what they need to report their health insurance coverage at tax time.

It's one more way IHFA makes plan administration easy - so your clients can focus on running their businesses, not their health benefits.

Don't forget about our other tax resources

- Medical Membership Enrollment by Tier Report - provides a breakdown of membership by tier for each month to help determine total membership
- PCORI Calculator - helps groups calculate their Patient-Centered Outcomes Research Institute (PCORI) annual fee
- Taxes & Fees FAQ - outlines common questions and answers about taxes and fees related to IHFA.

You can access all of these tools on the IHFA page of [ProducerWorld®](#).

For more information on 1095 reporting, visit the [IRS website](#).
