Innovation Health Affordable Care Act (ACA) plans to continue offering full reciprocity

Many of you voiced concerns about a recent change to the 1-50 Small Group Innovation Health ACA plans for 2019. In hearing your feedback, we are happy to announce that the 2019 Small Group Innovation Health ACA portfolio will continue to

offer “full reciprocity” for the upcoming benefit season beginning on January 1, 2019.

What does this mean?

Innovation Health members who have one of the Innovation Health ACA plans can continue to see participating providers within the Aetna broad national network. So as long as the provider accepts their plan type non-emergency care services are covered throughout the United States at the in network level of their plan type. And they can receive emergency care services throughout the United States regardless of their plan type.
