For each of the following, the updates made have been outlined:

[Universal Application](#) – The individual state jurisdiction applications for DC, MD, VA have been consolidated into one application.

### Employee Materials

**Mandatory Disclosures** – As a result of Section 1557 of the Affordable Care Act, **member-facing materials** must contain details on multi-language assistance available and a nondiscrimination statement. This information has been added to each of the following enrollment/change forms.
