## Out-of-Area MinuteClinics now accept members' normal cost share

Kaiser Permanente members can now visit the nearest MinuteClinic and just pay their standard coinsurance or copay if they get sick or injured while traveling in a state where Kaiser Permanente does not operate.\* There's no longer any need to file for reimbursement. All that is needed is a photo ID and membership card or health/medical record number. The improved experience when paying for care at MinuteClinic gives Kaiser Permanente members one more convenient alternative for urgent (non-emergency) care.

MinuteClinic, a subsidiary of CVS Health, is the country's largest walk-in retail clinic chain and operates more than 1,100 locations in 33 states. MinuteClinics are located in select CVS Pharmacy and Target locations and are staffed by nurse practitioners and physician assistants who can treat a range of simple urgent care conditions and symptoms. Members can visit a MinuteClinic with or without an appointment. Non-Medicare and non-Georgia Kaiser Permanente members also have the ability to get their prescriptions filled at the associated MinuteClinic pharmacy for their standard co-pay. A complete list of clinics and hours is available at [www.minuteclinic.com](http://www.minuteclinic.com).
