

Online Statement of Health Status Now Available on eService

Administering group benefits online just got easier. When you or your clients log in, you can view Statement of Health status for members and their dependents.

With a simple click, know where each member is in the review process. And if you or your clients have questions, get answers fast.

Find out if the coverage is approved, declined or pending – and the corresponding coverage amount. If we need additional information to review the request, that will be noted as well.

[Share This Flier with Your Clients \(PDF\)](#)

Not available to customers having a letter in their account number or self-accounting cases.

P.S. Your clients who administer group benefits online will receive a message about this enhancement.
