

Unleash the power of more robust, dynamic benefits administration

Want to make your client's day? Offer an easier way to administer benefits – with our latest, greatest eBenefits Edge Total Management. The platform is now powered by Businessolver, an industry leader in benefits technology.

It's new and improved, but still the same price

- All new look and streamlined user experience
- Enhanced enrollment by phone or tablet
- Intuitive recommendation tools
- Better reporting with analytics dashboard and easier election approvals
- Real-time data with approved changes live immediately
- Availability of defined contribution plans
- New, easy employee onboarding
- State-of-the-art security
- More Affordable Care Act (ACA) support, including 1094C and 1095C form generation and IRS filing*
- Ability to track and measure hours and stability period*

Plus, the *same great service* you expect and one *dedicated point of contact* through implementation and beyond.

Experience a demo of the new eBenefits Edge platform to see how it can make a real difference for your clients. ›
