# Premium discounts available when Large Group clients combine coverage

July 6, 2021

Your stand-alone, fully insured dental, vision, life, disability, or supplemental health clients can now save up to 4% on medical premiums while self-insured clients can save up to \$3 per employee per month when they add Anthem medical plans.

We've offered the [Anthem Whole Health Savings discount](#) when medical clients add one of the ancillary plans. Now it's expanded to include stand-alone groups who add medical benefits. The discounts are available for Large Groups up to 5,000.

In addition to premium savings, combining benefits with Anthem saves time on administration. Integrated health plans can help your clients and their employees save money.

Please contact your Anthem representative for more information.
