How IngenioRx moved millions of members to a new pharmacy benefit manager

July 6, 2021

In 2019, we created IngenioRx to make more meaningful connections with our members and help improve outcomes. Through the use of innovative technology, we created a new model of pharmacy care that considers each member's needs and helps to control costs.

What followed was an unprecedented transition of millions of members, involving more than 25,000 plan designs.

Learn more in this [case study](#) that examines how the pharmacy benefit manager (PBM) was founded, how we seamlessly moved millions of members, and the ways we've grown since.
