2020 IngenioRx Drug Trend Report is out

July 15, 2021

IngenioRx published its [2020 Drug Trend Report](#) on July 15, 2021.

The report is divided into three parts:

- Taking a Total View
- Specialty Supplement
- Reimagining What's Possible at Every Step of Health

The report is our most anticipated publication of each year. It tracks commercial trend.

In spite of a challenging year, IngenioRx achieved negative drug trends in both pharmacy-only and integrated pharmacy/medical plans. Key influencing factors were drug utilization, network performance, and drug mix.

Download the report [here](#).
