Download the Broker Plus app to save time and support cancer screenings

September 10, 2021

Anthem will make a donation to support cancer screenings when you download the award-winning Broker Plus app.

The COVID-19 pandemic led to a significant [drop in cancer screenings](#) over the past year. As a result, many cancers could be going undiagnosed and untreated. The American Cancer Society predicts that this will result in a drop in cancer diagnoses and a corresponding increase in late-stage diagnoses and potentially preventable deaths.

The American Cancer Society is leading a movement to dramatically and swiftly increase cancer screening rates. To support their efforts, we'll donate \$5 for ACS cancer screening activities* for each download of the Broker Plus app.

Broker Plus is the first mobile business management app for brokers from a major health insurer. It provides:

- Anthem Broker news
- Commission information
- Reports on new sales, retention, and commissions
- Access to Anthem Broker Hub
- Push notifications for new commission statements, news articles, or required action
- Account tracking

[Download the Broker Plus app](#) today to save time and support cancer screening.

The American Cancer Society does not endorse any service or product associated with this campaign.

*Anthem guarantees a minimum donation of \$5,000, up to \$20,000, to the American Cancer Society for downloads **through December 13, 2021**.
