# New IngenioRx webpage shares latest innovations

October 6, 2021

IngenioRx is working to transform pharmacy benefit management by reimagining what is possible.

The pharmacy benefit manager has just launched a new webpage to highlight its latest innovative efforts. The [Reimagining What's Possible](#) page at [Ingenio-Rx.com](https://www.ingenio-rx.com) focuses on program pilots, digital solutions, and products that set IngenioRx apart. Each multimedia story includes an article, downloadable pdfs, and a video starring an IngenioRx expert.

Right now, you can read these stories:

- Automated Pill Dispenser Pilot Helps Members with Chronic Conditions
- IngenioRx Launches MealAdvisor Pilot to Help Members Manage Diabetes
- IngenioRx's Prior Authorization Process is Faster, More Efficient
- IngenioRx Delivers Personalized Pharmacy Care with ZipDrug

We'll regularly post new stories and update existing stories to include emerging pilot or study results.

Visit Reimagining What's Possible often to learn what IngenioRx can offer your clients.
