# Producer Toolbox and the Broker Plus improvements make it easier to quote and enroll

March 28, 2022

We are working to make your job easier through innovative tools and technology. We've added new features to Producer Toolbox to help us work together more efficiently.

The **census tool** ([https://file.anthem.com/Census\\_How\\_To\\_Guide\\_03012022.pdf](https://file.anthem.com/Census_How_To_Guide_03012022.pdf)) is now easier to use and has less steps, making it faster to enroll members and validate data. You can enter data in the tool or by copying and pasting from another data source. The data entry method is easier to read. It now only shows the products sold and has simplified drop-down options and new easy to navigate action buttons.

New filters improve the **small group quoting** workflow by allowing you to sort on more data fields. There's a new "continue" button to reduce extra scrolling, and product selection screens show more details upfront in the quote origination and quote compare pages.

A new pop-up login screen helps you **quickly log back in** if you are automatically logged out of the system due to inactivity.

If the system becomes unavailable, you will see a message allowing you to enter your phone number to receive a **text notification when it's back up**, so you don't need to keep checking back.

You can take Producer Toolbox with you anywhere you go with the award-winning Broker Plus app. Download it before March 31st and we'll donate \$5 to the American Cancer Society on your behalf.

The American Cancer Society does not endorse any service or product associated with this campaign. \*\*Anthem guarantees a minimum donation of \$5,000, up to \$40,000, to the American Cancer Society for downloads through March 31, 2022.
