# Now you can login to Producer Toolbox without a password

July 28, 2022

You can now use the Broker Plus app to login to Producer Toolbox without entering a password. Once you've [downloaded the app](#) from the App Store or Google Play and logged into it on your phone, you can just tap the screen or look at the phone to login to Producer Toolbox.

The new login process uses a fingerprint or facial recognition on the mobile app to confirm your login to Producer Toolbox. It's private, fast, and more secure. You can still log in using your username and password when needed.

To enable this feature:

1. Log in to the Broker Plus app on your smartphone or tablet.
2. Select **Account settings** and choose **Enable passwordless login**.
3. Open [Producer Toolbox](#) on your computer and enter your username.
4. Approve the Broker Plus mobile app notification with a tap or facial recognition.
