

**THE COVID-19 SPECIAL
ENROLLMENT PERIOD
CONTINUES THROUGH
THE END OF THE PANDEMIC**

We'd like to share an update: Open enrollment ended yesterday, but your Individual & Family clients can continue to enroll in coverage using our COVID-19 special enrollment period (SEP) through the end of the pandemic.

We've made it simple. All your client needs to do is login to their DC Health Link account, select 'COVID-19' as their special enrollment period, pick a start date, and select a plan. If your client signs up by February 28, they can choose coverage starting on February 1 or March 1.

If you have questions, we encourage you to contact us using our [online contact form](#). You can also reach us by phone at (855) 532-5465 / TTY: 711.

As a reminder, all DC Health Link plans cover diagnosis, treatment, testing, and vaccination for COVID-19 for free.

Thank you for helping your clients enroll in coverage during this time and stay safe!

The DC Health Link Team
