

For brokers and producers only

Date: April 29, 2021

**Markets: Groups with Dental**

## Dental Un-Rounding Rates

Effective August 1, 2021 (pending regulatory approval), the CareFirst Hub and Broker Express systems will be updated to calculate dental rates to include dollars and cents. This change will apply to Preferred and Traditional Dental. Rates will be calculated using the same methodology as BlueDental. There will be no changes to rates or methodology for BlueDental EPO or DHMO plans. We ask that you please be prepared to update your systems to accommodate the un-rounded rates.
