New COVID-19 Vaccine Webinar-Outlook Email

Recently, we shared a new on-demand webinar [Addressing COVID-19 Vaccine Hesitancy](#), featuring CareFirst Medical Director Dr. Russell Lewis Jr. If you've already shared the link with your CareFirst clients, thank you. If you haven't, we encourage you to do so.

As a follow-up to help support your outreach efforts, we've created an [Outlook email template](#) your clients can share with their employees to help answer questions about the COVID-19 vaccines. [To download the file, click on the link. Please remember to turn off your Outlook signature before sending the template to avoid prepopulating it with your personal contact information.]

Together, we can continue to make a difference in driving immunization to leave COVID behind.
