Updated Vaccine Network Fliers

Flu season is here! As a reminder, the following vaccines are covered under both the regional and national networks:

- COVID-19
- Flu
- Human Papillomavirus (HPV)
- Pneumonia
- Shingles
- Meningococcal (meningitis)
- MMR (measles, mumps and rubella)
- Tdap (Tetanus, Diphtheria and Pertussis—also known as whooping cough)
- Td (booster vaccine for Tetanus and Diphtheria)

Regional vaccine network

The [regional vaccine network](#) provides coverage within the CareFirst regional service area (MD, DC and Northern VA) and is available to all CareFirst members who have medical benefits.

Below is a list of the major chain pharmacies that participate in the regional vaccine network. Members may call CareFirst member services to confirm whether a pharmacy participates in CareFirst's medical network.

- CVS (including those in Target stores)
- Giant Pharmacy
- Rite Aid
- Safeway Pharmacy
- ShopRite Pharmacy
- Walgreens
- Walmart
- Weis Market Pharmacy

National vaccine network

The [national vaccine network](#) provides coverage outside of the CareFirst regional service area and is only available to members in 51+ groups with pharmacy benefits. All major pharmacies are in the national vaccine network including CVS, Rite Aid, Walgreens, Giant, Walmart and more.

Important reminders

- Members should check with the pharmacy to determine whether a prescription or doctor's order is required for any of these vaccines.
- Members should check their benefit plan to determine whether they are responsible for any copays or deductibles.
- Members should let their doctor know they received the vaccine at their next visit.

Review the regional and national vaccine fliers for more information.
