## Virtual Open Enrollment Has Never Been Easier

---

### **Our digital capabilities make bringing on new dental and vision members a breeze**

As many in the country approach the year mark of the virtual work-at-home environment, serving in a virtual capacity has become the new normal (at least for now) and we've all gotten really good at it. While it may have initially felt necessary to remain stagnant when it came to employer benefits, making changes that can contribute to employer and employee savings may help to offset some of the financial challenges caused by the pandemic. Fortunately, Dominion National is here to provide you with high-value dental and vision benefits, best-in-class service and hassle-free open enrollments in a virtual capacity.

#### **Key features include:**

Virtual open enrollment meetings via conference call, Microsoft Teams or your preferred platform

Custom member pre-enrollment kits emailed within three business days

Eligibility submissions through a census spreadsheet via secure email or electronic eligibility for groups of 50 or more<sup>1</sup>

Quick and easy access to digital ID cards through our robust digital member resources, including our member portal, mobile app and text notifications

Ongoing support from a dedicated team of subject matter experts available through your preferred mode of communication

**If you are looking to save costs, consider adding Dominion's ePPO or Select Plan alongside a PPO as an alternate low-cost option.<sup>2</sup>**

1. Groups with fewer than 100 enrolled employees must use one of Dominion's existing EDI vendors.

2. The ePPO is not available in New Jersey. Select Plans are managed care plans with an exclusive network, fixed member copayments, no annual maximum dollar limits, no waiting periods and no deductibles.
